SECTION TWO MERGER TRANSACTION OBJECTIVES

The objective of the Merger Transaction is to allow Enel Americas to consolidate, control and participate in the non-conventional renewable energy generation business and assets that Enel Green Power operates and owns in Central and South America (except Chile).

Notwithstanding other expected benefits of the Merger Transaction applicable to each of the Parties, which are detailed in the experts' reports, independent valuator's reports, directors' committee reports and individual directors' opinions, as applicable, the Merger Transaction - including the Merger - is expected to result in the following specific benefits:

- a) Consolidate Enel Americas as a diversified player and leader in the region by increasing its market capitalization;
- b) Accelerate the adaptation of Enel Americas to the emerging energy transition and sustainability scenario. In this context, the operation will result in an increase in the generation of renewable energy in Enel Americas, in addition to the future increase resulting from the broad pipeline of renewable assets;
- c) Enable Enel Americas to access a portfolio of renewable energy generation projects in the medium and long term for a total of approximately 22.1 GW of installed capacity. This growth potential is fundamental due to the significant growth that the unregulated market in the region will experience (especially in the case of Brazil), making it of the essence to incorporate a significant installed generation capacity, with a sizeable pipeline of projects under execution in the short and medium term;
- d) Increase the diversification of Enel Americas' assets both technologically and geographically;
- e) Tap into the know-how and track record of Enel Green Power, a global leader in the development of renewable energies
- f) Preserve Enel Americas' Financial Leverage, allowing the company to maintain financial flexibility to finance future growth; and
- g) Provide Enel Americas with the potential to increase its participation in stock indexes associated with ESG (Environmental, Social and Governance), which are becoming increasingly relevant in the eyes of global investors and fund managers.

SECTION THREE: PREPARATORY ACTS AND MERGER

The Merger Transaction contemplates the following acts in order to implement it and achieve its objectives: (i) the Spin-off; (ii) the International Merger; (iii) the Merger; and (iv) the Amendment to the Enel Americas Bylaws. The acts indicated in paragraphs (i) and (ii) refer to previous internal reorganization activities of Enel SpA, in which Enel Americas does not participate, and are not an integral part of the Merger itself.

3.1 Previous Preparatory Acts

The Merger Transaction requires, for its completion, the approval and implementation of the preparatory acts described in paragraphs (i) and (ii) below. It should be noted that such preparatory acts will be carried out directly by Enel S.p.A., the Italian parent company of Enel Americas S.A., and without the intervention of the latter, since they constitute internal reorganizations of the former.

(i) Partial Spin-off of Enel Green Power.

As a first step towards completing the Merger Transaction, Enel S.p.A. has approved the partial spin-off of Enel Green Power, in accordance with Italian law. The company resulting from the spin-off will be Enel Rinnovabili, which will be assigned the business, corporate shares, assets and liabilities associated with non-conventional renewable energy generation projects that Enel Green Power develops and owns in Central and South America (except Chile).

As of the date hereof, the Spin-off project has already been approved by the requisite corporate action. The execution of the public instrument of Spin-off and its ensuing effectiveness is pending the fulfilment of certain conditions. Thus, on the date the spin-off takes effect, Enel Rinnovabili will become the owner of the interests in non-conventional renewable energy projects currently held by Enel Green Power in companies located in Argentina, Brazil, Colombia, Peru, Costa Rica, Guatemala and Panama. Details of these corporate investments are described in **Schedule 3.1** of this instrument. Furthermore, under the Spin-off, Enel S.p.A. will be incorporated as a full member of Enel Rinnovabili, as its sole shareholder.

(ii) International Merger of Enel Rinnovabili into EGP Américas.

Once the Spin-off has been completed and Enel Rinnovabili has been incorporated in Italy, Enel S.p.A., as the sole shareholder of Enel Rinnovabili and EGP Americas, will proceed with the approval of the International Merger.

In order to carry out the International Merger, EGP Americas and its shareholder must comply with the formalities and requirements established for the merger of companies under the LSA and RSA, exclusively with regard to close-ended corporations. On the other hand, Enel Rinnovabili must comply with the formalities and mandatory requirements established by Italian law to carry out the International Merger.

On the date on which the International Merger takes effect, Enel Rinnovabili will be dissolved and absorbed by EGP Americas, the latter acquiring all the assets, liabilities and equity of Enel Rinnovabili, i.e. the business, corporate shares, assets and liabilities associated with non-conventional renewable energy generation projects in Central and South America (except Chile) assigned to Enel Rinnovabili under the Spin-off. EGP Americas will succeed Enel Rinnovabili in all its rights and obligations, since as a result of the International Merger, EGP Americas will be considered as the successor to Enel Rinnovabili for all legal purposes. Furthermore, as a consequence of the International Merger, Enel Rinnovabili will be dissolved, with Enel S.p.A. maintaining its status as the sole shareholder of EGP Americas. The foregoing is notwithstanding the specific effects or exceptions that may be applicable under the Italian legislation governing Enel Rinnovabili.

3.2. Acts Required for the Merger

In addition to the approval and completion of the preparatory acts described in Section 3.1 above, in which Enel Americas is not involved, the Merger Transaction requires the following acts for its completion:

(i) Approval of the absorption Merger of EGP Americas into Enel Americas.

In order for Enel Americas to acquire the business, corporate interests, assets and liabilities associated with non-conventional renewable energy generation projects in Central and South America (except Chile), the Merger Transaction contemplates the absorption Merger of EGP Americas into Enel Americas.

On the date that the Merger takes effect, EGP Americas will be dissolved and absorbed by Enel Americas, the latter acquiring all assets, liabilities and equity of EGP Americas, that is, the business, corporate interests, assets and liabilities associated with non-conventional renewable energy generation projects in Central and South America (except Chile) acquired by EGP Americas under the International Merger. As a consequence of the Merger, EGP Americas will be dissolved, which will occur without the need for winding-up since its shareholder will become a shareholder of Enel Americas.

As a result of the Merger:

(a) Enel Americas will succeed to all its rights and obligations, becoming the only party responsible for the payment of all the debts or obligations that directly, indirectly or potentially EGP Americas may have, whether with its shareholders, workers, suppliers, banks, financial institutions, companies, and in general with any natural or legal person, in the same manner and terms in which such obligations were incurred by EGP Americas, as appropriate, with all the benefits and obligations of EGP Americas, as appropriate, and with all the terms, conditions, modalities, guarantees and exceptions that EGP Americas has with respect to such liabilities, as appropriate, since by reason of the Merger, Enel Americas will be considered as the successor to EGP Americas for all legal purposes; and

(b) Enel Américas shall be jointly and severally liable and obligated to pay the corresponding taxes, in accordance with the respective balance sheets to be prepared by EGP Americas under the provisions of Article 69 of the Tax Code. Also, for the purposes set forth in Articles 69 and 71 of the Tax Code, Enel Americas shall be liable before the Chilean Tax Authorities for all taxes, charges, liens, deferred customs duties or tax credit, of land tax and other obligations of a fiscal nature, regardless of their nature, which EGP Américas owes or may owe.

In accordance with the LSA, the quorum for the approval of the Merger by the shareholders of Enel Americas and EGP Americas shall be 2/3 of the shares of stock issued with the right to vote. The approval of the Merger by the Merger Shareholders' Meetings of Enel Américas and EGP Américas will grant the dissident shareholder of Enel Américas the right to withdraw from said company, upon payment by the former of the value of its shares in the terms and conditions established in the LSA and RSA.

(ii) Amendment to Enel Americas' bylaws.

If the Merger occurs, Enel S.p.A., in its capacity as controller of Enel Americas, will exceed the concentration limit of Enel Americas established in Article 5-Bis of its bylaws, as provided for in Title XII of Decree Law 3,500. Consequently, in order to carry out the Merger, the shareholders of Enel Americas must first approve an amendment to its bylaws, eliminating the concentration limit established in accordance with Title XII of Decree Law 3,500, which prevents any one person from concentrating more than 65% of the voting capital of Enel Americas, as well as the other limitations on shareholder ownership established in said Title XII. Notwithstanding the foregoing, the articles of the bylaws regarding the existence and approval of the investment and financing policy of Enel Americas shall remain in force.

The bylaws of Enel Americas provide that the quorum for approval of the Amendment to the Enel Americas Bylaws by the shareholders of Enel Americas shall be at least 75% of the issued shares of voting stock of such company.

SECTION FOUR RELATED-PARTY OPERATIONS

The Merger involves Enel Americas and EGP Americas, which belong to the same corporate group because they are under the common control of Enel S.p.A.

Accordingly, the Merger will be approved in accordance with the rules and procedures for the approval of RPOs established in Title XVI of the LSA in the case of Enel Americas and, in the case of EGP Americas, in accordance with the rules and procedures of Article 44 of the LSA.

Accordingly, the effectiveness of the terms of this instrument shall be subject to the approval of the Merger as an RPO in accordance with the rules and procedures established in the aforementioned Title XVI of the LSA for the case of Enel Americas and, in the case of EGP Americas, in accordance with the rules and procedures of Article 44 of the LSA.

SECTION FIVE CONDITIONS AND EFFECTIVENESS OF EACH ACTION OF THE MERGER TRANSACTION

5.1 Effectiveness of the Spin-off.

In accordance with Italian law, the Spin-off, and the ensuing incorporation of Enel Rinnovabili, shall take effect 60 days after the date on which the Minutes of the Enel Green Power Shareholders' Meeting are recorded in the Commercial Register. During this 60-day period Enel Green Power's creditors may file an opposition to the Spin-off.

The Spin-off was approved on October 12, 2020, and was registered with the Commercial Registry of Rome on October 14, 2020, so that, if the conditions indicated above are met, it would presumably take effect on December 15, 2020.

Such authorizations and/or registrations shall be considered a condition for these purposes to the extent that the absence thereof should have a material effect on the Merger.~~

It is expected that the International Merger will be approved in January 2021, so that, if the above conditions are met, it shall take effect in March 2021. Notwithstanding the foregoing, actions are being analyzed and carried out with the aim

of excluding the application of the 60- day period referred to in the previous paragraph, in accordance with Italian law.

Once the conditions have been fulfilled and the 60-day period referred to in the preceding paragraphs has elapsed (unless the aforementioned exception to the 60-day period applies), the agents appointed by the directors of Enel Rinnovabili and EGP Americas, shall issue one and the same International Merger Completion Instrument, which shall be recorded separately from the registration of EGP Americas in the Registry of Commerce of the Santiago Real Estate Records Office. The International Merger Completion Instrument shall be effective on the same date that the International Merger Completion Instrument is executed, regardless of the date in which the formalities for the registration of the corresponding extracts and the International Merger Completion Instrument in the Commercial Registry are completed and published in the Official Gazette, which may be done before or after the execution of the International Merger Completion Instrument. The conditions set forth below are not exhaustive, and additional conditions may be established by the parties to the Merger or by any of the corresponding governing bodies.

Once compliance with the conditions indicated below has been confirmed, the Merger and the Enel Americas Bylaws Amendment shall take effect on the same date, i.e., the Merger Effective Date. The foregoing is notwithstanding compliance with the formalities established in the LSA, including the timely registration and publication of the extracts from the respective instruments.

In any case, the conditions indicated below must be fully complied with on or before December 31, 2021. Thus, the Merger Effective Date cannot take place after the date indicated above.

Over such shares, Enel Américas shareholders will not enjoy the preemptive subscription right referred to in the LSA and they shall be delivered to the EGP Américas shareholder(s) according to the exchange ratio agreed upon at the Merger Shareholders Meeting. These shares will be issued and distributed by the board of directors of Enel Americas directly to the shareholders of EGP Americas on the Merger Effective Date, exchanging their shares of EGP Americas for the shares of Enel Americas.

Accordingly, the exchange ratio between Enel Americas and EGP Americas shares will be 0.43 Enel Americas shares for each EGP Americas share held by the shareholder(s) of the latter, without considering share fractions. Notwithstanding the foregoing, the exchange ratio indicated above will be determined finally by the Merger Shareholders' Meeting, within a range of 0.41 and 0.45 shares of Enel Americas for each share of EGP Americas, calculated according to the following formula:

$$\text{Exchange Ratio} = \frac{\text{Number of new shares issued by Enel Americas to complete the Merger}}{\text{Number of shares into which the capital of EGP Americas is divided on the effective date of the Merger}}$$

In order to determine the exchange ratio of the Merger, prior to the Merger Effective Date, the capital of EGP Americas will be divided into 76,086,311,036 shares.

This Committee shall be governed in its formation, membership, functioning and powers by the provisions of the Chilean Companies Act and instructions on this subject issued by the Superintendence of Securities and Insurance.

Article 29: Notwithstanding the provisions of the preceding Article and while the Company is an issuer of securities duly registered with the New York Stock Exchange (NYSE) or any other American national stock exchange, the formation, membership, functioning and powers of the Directors' Committee shall also be governed, where not to be contrary to Chilean law, by the obligatory provision for the so-called "Audit Committee" in the Sarbanes Oxley Act (SOX) of the United States of America and the instructions issued by the Securities and Exchange Commission (SEC) and the New York Stock Exchange (NYSE), or the organism or entity that definitively corresponds in accordance with the legislation of the United States of America. In case of an irreconcilable or irremediable conflict, disagreement or incompatibility between the provisions of Chilean and American legislation for the Directors' Committee and the Audit Committee respectively, Chilean law shall prevail over foreign law, although the Board of Directors may call an Extraordinary Shareholders' Meeting to amend the bylaws should this be necessary, and shall have the widest powers, acting within its powers, to solve such conflict, disagreement or incompatibility should this be possible, by the creation of new committees and/or sub-committees, as also the delegation of part of its powers in accordance with Article 40 of the Chilean Corporations Act. Article 33: The meetings of the Directors' Committee shall be validly constituted with the absolute majority of its members and its resolutions shall be adopted by the absolute majority of the members present. In any event, the Board of Directors may, under the personal responsibility of the Directors present at the respective approval, distribute interim dividends during the year as a charge against the profits of

that year, provided that there are no accumulated losses. That portion of profits earnings not appropriated by the Meeting to dividends, may be capitalized at any time, subject to amending the bylaws through the issue of free shares or by increasing the nominal value of the shares, or be retained to meet possible dividend payments in following years.
