ADAMS SOLAR PV 2 – FULFILMENT OF SPECIFIC ENVIRONMENTAL AUTHORIZATION CONDITION

This letter serves to confirm that agreement was reached between Adams Solar PV Project Two (Pty) Ltd (**Project Company**) and Directorate: Forestry Regulation and Oversight of the Department of Agriculture, Forestry and Fisheries Department (**DAFF**) (together with the Department of Environment & Nature Conservation Northern Cape (**DENC**)) for a first phase biodiversity off-set for the Adams Solar PV Project 2 (**Adams Project**).

Condition 25 of the Environmental Authorisation (dated 28 March 2013 with reference number DEA/EIA/0000739/2011) granted by the Department of Environmental Affairs (**DEA**) to phases 1 & 2 of the Adams Project, required that:

"The applicant must negotiate and implement a biodiversity offset with the Department of Agriculture Forestry and Fisheries prior to construction."

This letter serves to notify the DEA that this condition has now been satisfied and we hereby request that the DEA issue the Project Company with an official acknowledgment that condition 25 of the EA has been fulfilled, and that the Adams Project may now progress.

Yours faithfully,

Georgios Pergamalis

Director
Adams Solar PV Project Two (Pty) Ltd
